SENATORS LOST THE GAME.

First of the Western Contests Went to Comiskey's Lively Chaps.

CINCINNATI, Sept. 8 .- The Reds batted out the victory in the sixth after they had all but lost it by errors in the two previous innings. Haddock was effective at certain stages, but when the Reds needed hits they managed to connect with the ball. The Senators tried hard for victory and the locals came very near losing by errors, but Schmeir's boys were de-termined to lose and they did so.

The attendance was 1,000, those present be ing members of the faithful fans who never

BOOM IN THE PYTHIAN LODGES

The Effect of the Eucampment of the Uniformed Rank is to Increase the Membership-A New Ritual for Shriners-Knights Templar Ready for the Fall Work.

The Knights of Pythias have held possession of the city for the past two weeks, and all the youngsters are parading the streets in paper caps with their hats suspended from a rear waist button-all the result of the uniformed rank parade. The camp has been broken up, and barring a few missing tents and some broken cots, everything is in ship shape. The supreme lodge of the order is still in session, and naturally its work is attracting much attention, which is not confined to members of the order. The new constitution, which has been adopted, seems to lease the leading local members very much, please the leading local members very much. The leading changes are the barring of liquor men from membership and forbidding the German ritual. The uniformed rank is now independent from the supreme lodge. It will have absolute control of its own affairs, the supreme lodge having no authority except in the selection of the major general. The prize money, of which only one-half was paid, will be made all right. Pass Grand

commander Bunch has this to say concerning the prize money. The money will be raised with but little difficulty, though it is pretty hard that the subordinate lodges, which are not profiled a cent fluancially, should have this burden to bear. The question has been before that the city in which the encampment is held should raise the meany for prices as is held should raise the money for prizes as well as for other expenses. But we are in for it and will meet the obligation, though each subordinate lodge in the city has a better use for its share of the money. The Fythian World issued a most hand-

some souvenir number during the encamp-nent. It was brimful of matter of interest to

Pythians and beautifully illustrated.

The subordinate lodges and uniformed rank divisions have been very busy all summer and are now taking a little rest. There was quite a boom in membership in anticipation of the encampment. Now that it is over, the enthusiasm continues, and as a result it is expected that several new subordinate lodges will be instituted and at least one new division of the uniformed rank.

Soldier Boys Resting After Company Camps and Summer Work.

HILTON TROPHY TO BE LOANED

Pennsylvania Will Have It For a Year Because the Local Team Had Not a Rifle Bange On Which to Practice-Gen. Ordway Pleased with the Record Made.

The National Guard of the District is taking a rest. The boys have all come back from camp and during this month there will be but few drills. This matter is left entirely to the regimental and company commanders, and none of them have issued orders naming the date for the commencement of drill. The Central Armory will have to be utilized for some months yet and the old assignment of some months yet and the old assignment of nights will be in force until the new armory is opened. Work on the new structure has not proceeded as ripidity as was hoped for, and as a consequence there are a large num-ter of disappointed soldier boys. The gen-eral impression now is that the first of the year will see the guard brigaded in its new quarters. Then they expect to show the country what they can do.

The result of the company cames this same-

country what they can do.

The result of the company camps this summer was good, but all in all was not up to the expectations of the officers. As a rule they hold that the lest results are obtained from brigade damp, and next year that is what they will have. An appropriation has been made for this purpose and during the winter plans will be laid to make it a great success. With the new armory and a brigade camp in view the guard will have an incentive to do the best kind of work.

The Hilton trophy and the interstate trophy will leave this city, though Washington's representatives at Sea Girt made a valiant struggle to keep them. The learn wore was better than that by which the trophy was win, and the guard can be proud of the record made. The contests were fought to the end, there being no let down on the part of the hors. The score of the Fransylvania fram, which won the traphy, was 1,088, while the District came second with 1,082. The remaining scores were: New York, 1,072; New Jersey, 1,059; Maine, 1,039, and Georgia, 1,052. In the interstate match the Fistrict was third, New Jersey capturing the price with a score New Jersey capturing the prine with a wore of 1,044; Pannsylvania following with 1,056, and the District coming next with 1,056. It is a peculiar fact that in each match the District boys were only six points behind the

Pennsylvania team.

The Engineer Corps, however, was able to capture the interstate regiments fromly, a cup offered for competition between teams of six men from the National Guard of all the States and the regular Army. The Washington team made a score of 514, the next team having 5a7 points to their credit. So the contestants do not come home empty handed. They will arrive in the oily the morning or evening, but will not be received in any special manner. It was hoped that some demonstrations might be made, but the day of their arrival tening Suaday makes it impossible. Reports from Sen Girt show that the boys have had a most pleasant time and conducted themselves in such a manner as to add honor to the organizations they represented. Their return will be the last military event until the regular drills are begun. Pennsylvania team.

THE COMMANDES PLEASED. Gen. Ordway spent a short time at Sea Girt and wanted to stay longer, but was called to New York by important business matters. "Was I pleased with the showing the teams mate. Well, I should say I was, he remarked to a There representative "Just thing of it! We made a higher score than when we won the Histon trophy. Isn't that something to be proud of. The Pennsylvania team came on the ground dead sure of a walkteam came on the ground dead sure of a walcover. The team had been shooting since May, and had just finished the contest for the State prime. They were in just as good condition as a boat club would be for a boat ruce. They were surprised at the showing our boys made, and they had to light to the end.

"It was the prettiest shooting match I ever saw. When the shooting began on the 600-yard range the Fennsylvania boys were lust six points shead. In a few minutes the score was tied. There were lifty-six shots to be fired on each side and every shot meant some thing. Not a District boy lost his nerve, Each one fired just as carefully and with as much nerve as if the match were just beginning. But the training told and the Pennsylvania men were able to pull out winners with six points to their credit. You must take into sideration the fact that none of the Washington team have had any practice. We have no range now and I can only order the guard out for one day's shooting. All the practice they had was that which they were able to get at Sea Girt. The Pennsylvania feam was fu he shape and our score is one to be n To say that I am pleased is expressing it very

presses the necessity for a rifle range for the District guard. The orders for battalion rifle practice will soon be issued, but that will be for only one day. What is demanded is a range of ear access where volunteer shoot-ing can be done. It should be so near the one of the volunteer can reach it and prac-city that the volunteer can reach it and prac-tice with not more than the loss of haif a day from his business. The Pennsylvania guar-have such ranges, and as a consequence their ride practice ranks high. Had the Washington team had the opportunity of practice the Hilton trophy would have remained in this city for another year at least. There is some hope that arrangements can be completed to secure a suitable range, and, if they are suc-cessful, a year is not a long time to wait. The canneal feeling among the grant in the sity general feeling among the guard in the city is voiced by Gen. Onlway: "Every one is gratified that the team made such a hand-some score. There would have been but little surprise had it come out last instead of

THE BUYERS AND THE OUARD, The movement to include the hiffes in the National Guard may be successful yet. The regular monthly business meeting was held. Thursday night and some important business transacted. An amendment providing that membership in the future shall not carry with t any interest in the property was passed. It not rescinced at the next meeting it will stand and the closing up of the membership of the corporation will be begun. The valuable property of the Rules is the stambling block in the way of affiliation with the guard, but this can be oversome, and the resolution presented Thursday night may turn out to be a long step in this direction. A committee to revise the consitution was appointed, consisting of Lieut Mason, Lieut, Conger, Serveiny Edward R. Harrington, and Privates Robert E. Constant and E. A. Goodwin, Lieut, Each, was transferred from the voterant to the Keech was transferred from the veteran to the

active role.
Lieut C. B. G. Conger, judge advocate, resigned his commission. Capt. Owser, commanding the company, has not decided set when he will order drills. He thinks the when he will order orders, he inhard the nights are a trifle too warm and nothing may be done in this respect until in October. He has nothing to say concerning the company entering the National Guard, but is quietly awaiting results. He will be satisfied either

way.

The Light Battery boys are taking matters very lieisurely. Nothing is going on and they want all the rest possible before drill time

Capt. H. S. Barbour, of the cavalry, is in New York, where he went to meet his mother, who has just returned from a trip to Europe. In the First Regiment everything is very quiet. Col. Moore and Lifett. Col. Walton are ready to put on their uniforms as soon as the Col. Clay, of the Second Regiment, has been to Sea Girt attending the rifle matches.

to Sea Girt attending the rifle matches. The officers of the Engineer Corps were also present and are enthusiastic—of course. Capt. Storey, of the Bicycle Corps, is recovering from his attempt to run over an English

mastiff a week or so ago. He killed the dog and almost killed himself. The High School Cuslets are on the anxious bench. They do not belong to the National i Guard, but think they ought to. Just now the beginning of the school year reminds them that a lot of promotions are due. That is why the youngators are worried.
